Foreword

THE ALUMNI DIRECTORY for 1930, THE CENTENNIAL YEAR of the College's foundation is based upon information submitted to the Alumni office up to and inslusive of March 1, 1930· Its publication represents an honest effort on our part to provide the Alumni with such information as is generally found in a book of this type.

The Directory contains the names of all those who have attended Spring Hill College during the past century with the exception of the first few years from 1830 to 1847. The records for those years were partly destroyed by fire and it has not been possible to locate the names of students registered during that period.

Included in the Directory will be found Graduates and Non-Graduates. Separate lists are made for each category. A complete check of old College records is now being made in an effort to include in a future issue of the Directory any names which may at present be omitted.

Omission or incorrect information indicates in nearly every case that the person concerned has failed to respond to repeated inquires from the College. It is possible, however, that in many cases the inquiries may not have reached the person to whom they were directed.

Wherever possible both the home and business addresses are given. The profession or occupation is taken from the data supplied by the Alumnus.

No publication giving information regarding over five thousand persons, many of whom it has been impossible to reach at first hand, can pretend to absolute correctness. However, in making the 1930 Directory as complete as possible, no effort has been spared and it is our hope that it will prove a source of information and pleasure to the Alumni.

SECTION V.

Degree Conferred

Spring Hill College was opened in 1830 and incorporated in 1836 by the Legislature of Alabama with all the rights and privileges of a University; in 1840, Pope Gregory XVI empowered it to grant degrees in Philosophy and Theology.

In 1837 the degree of Bachelor of Arts was bestowed for the first time on four graduates. Unfortunately we have been unable to discover their names, as the records of these early years have perished. We have, however, in our possession documents which clearly show the number of degrees granted from 1837 to 1848. We give these figures below:

1837	4
1838	4
1839	2
1840	0
1841	10
1842	8
1843	2
1844	1
1845	0
1846	0
1847	0
1848	1

SECTION VI

Geographical Index

N. B. It has been our endeavor to classify the Alumni according to countries, states, cities and towns. Alumni will thus be able to discover Hillians in their own locality whom they do not know as Hillians or of whose presence in their neighborhood they were not aware.

The Alumni office will appreciate any correction concerning oneself or others which you send in.
